

## **Defining Success: Worksheet 2**

After you have completed the Defining Success: Worksheet 1, you should have an accurate understanding of your personal definition of success. The next step is to simply write your own personal Success Scenario. A Success Scenario paints a picture of what your life will look like when you have realized success.

This is YOUR Success Scenario, so it can be as long or as short as you like. It can be written in paragraph or story format, or it can be a series of random words that have particular meaning to you. Personally, I use the story format, broken down into bullet points. BE CREATIVE and BE HONEST with what YOU want in life.

### **My Success Scenario**

Excellent Work! Now that you have your Personal Success Scenario. Place it in a spot that you can see it or refer to it every day. You may even want to make a copy or two and have them in different locations. Make sure you take a few minutes each day to read through your Personal Success Scenario and visualize your life already there. Remember to “feel” what it will be like when you have already achieved the success scenario you have created for yourself.
